Licensing Suggestion Draws Opposition from Many Solons

(By Associated Press.)

Washington, August 9.—Congress got down today to analyzing and digesting President Wilson's recommendations for reduction of the increased cost of living. Although neither branch of Congress was in session today, leaders prepared to take action at an early date on the living problem.

Although some members disagreed with the recommendations of the President, it was believed that the prospective legislation generally would follow the proposals he made.

Suggestion by the President for federal licensing of all corporations engaged in interstate commerce and for extension of the food control law met with the greatest opposition in congressional circles.

Many of the opponents of the league of nations in the Senate criticized the stress laid by the President on early ratification of the peace treaty, some of them, including Chairman Lodge and Senator Harding, of Ohio, of the Foreign Relations Committee, declaring there was no connection between ratification of the peace treaty and the cost of living.

WILL PREPARE HOARDING LAW

(By Associated Press.)

Washington, August 9.—Hearing on new cold storage legislation recommended by the president will begin before the house agriculture committee Monday, it was announced late today.

It is understood the measure as proposed would permit the time in which supplies might be held and compel disposal of them after the permitted period.

MANY MEMORIALS PLANNED.

New York, August 9.—Plans to erect war memorials in the form of buildings to be used as social centers have been decided upon by 236 cities, towns and villages in the United States, according to figures made public Friday by the war camp community service. The organization is carrying on a country-wide campaign through its bureau of memorial buildings.

INDICTED MEN OUT ON BOND

(By Associated Press.)

Cleveland, O., August 9.—The seven members of the Ohio Farmers' Co-operative Milk Company, who were arrested late last night and held in the county jail following indictment yesterday by the special county grand jury, charged with violation of the anti-trust law were released on \$2,000 bond in each case today. Trial was fixed for September 7th.

STRIKING RAILROAD SHOPMEN RETURNING TO WORK NEARLY NORMAL CONDITIONS EXPECTED BY MONDAY

Officials Claim Only 40,000 Shopmen Remain on Strike

1200 Employees Refuse to Take Up Work.

Hitchcock Opposed to Railroaders' Plan of Control

(By Associated Press.)

Chicago, August 9.—Regional directors of railroads said today that while both passenger and freight traffic on many roads still is seriously affected as result of the shopmen's strike, conditions are improving. They expect a majority of the strikers will be back Monday.

Although officials of the Chicago District Council of Railway Shopmen insist that 275,000 men are out and that not more than 25,000 have returned since President Wilson declared the demand of the men for increased wages would not be considered until they returned to work.

Railway officials declared the total number on strike does not exceed 40,000. They say the men are returning in small groups throughout the country.

Limited embargoes on freight were continued today.

1200 EMPLOYEES WILL NOT RETURN

(By Associated Press.)

Cincinnati, O., August 9.—Refusal of 1200 striking shop employees on C. & O. and L. & N. railroads to return to work after a meeting today, blasted the hopes of operating officials and the railroad administration for an immediate lifting of the embargoes in the Cincinnati district.

HITCHCOCK WILL OPPOSE PLAN

(By Associated Press.)

Washington, August 9.—Senator Hitchcock, democrat, Nebraska, announced today that he was opposed to the plan of the railroad brotherhoods for reorganization of railroads.

BACK AT WORK

(By Associated Press.)

Cleveland, O., August 9.—Work in the Cleveland shops of the Pennsylvania railroad was in full blast today when the strikers voting to end the strike returned.

Ferdinand in Budapest. Zurich, August 9.—King Ferdinand of Rumania, has arrived in Budapest, according to a dispatch reaching here from that city.

UNION LEADERS MAKING EFFORT TO SOFT PEDAL

Do not Mean to Impress "By Violence or Threat" Proposal Made.

Would Separate Strike and "Tripartite Control."

(By Associated Press.)

Washington, August 9.—Leaders of the fifteen organizations of railroad employees united today in a definite assertion that they had "no desire, and have had none, to impress upon the public by violence or by threat" their proposal that the railroads be nationalized under "tripartite control."

Declaring that the request of the men that living costs be reduced or their wages increased was aside from the question of the future disposition of the railroad problem, the labor leaders said that if President Wilson and Congress could not meet this request the men would "have to try to find another solution."

REPORT CLAIMS GEN. PERSHING ORDERED HOME

Visit to Belgian King May be Abandoned.

(By Associated Press.)

Paris, August 9.—It is reported here that General Pershing has been recalled suddenly to the United States, and that he may even abandon his visit to King Albert of Belgium, planned for Sunday.

KNOW NOTHING

(By Associated Press.)

Washington, August 9.—Secretary Baker and General March, chief of staff, said today they knew nothing of any order recalling General Pershing to the United States.

White House officials said they had not been advised of any such order.

BLAST KILLS MANY PERSONS

(By Associated Press.)

St. Catharines, Ontario, August 9.—Five persons were killed, 14 were injured and 15 are missing as result of an explosion which wrecked the government elevator at Port Colborne this afternoon, according to reports received here.

THREE MURDERS IN WEEK.

Youngstown, August 9.—With the discovery of a man's body with pockets rifled along the Erie tracks Friday, police believe the third murder of the week has been discovered. Receipts in the man's pockets bore the name of G. L. Morford. A blow on the head killed him.

Left to right, above, Russell C. Leffingwell and William B. Colver. Below, Walker D. Hines.

These men have been appointed to represent the cabinet in the present fight to reduce the high cost of living. W. B. Colver is chairman of the federal trade commission, W. D. Hines is director-general of the railroads and R. C. Leffingwell is assistant secretary of the treasury.

PRESIDENT MAY CARRY PROBLEMS TO THE PEOPLE

Domestic Affairs to be Taken Up in Wilson Tour

(By Associated Press.)

Washington, August 9.—Domestic problems now facing the country may be taken up directly with the people by President Wilson during his forthcoming trip in the interest of the peace treaty.

This was indicated today at the White House, where it also was said that plans for the President's tour were going forward.

MANY FARMERS UNDER ARREST

(By Associated Press.)

Pittsburg, August 9.—In a drive to curb profiteering among farmers who sell foodstuffs in this city at abnormal prices the city ordinance officer today arrested 32 farmers charging them with misdemeanors. The arrests were made at markets in the city.

DOCUMENTS TO GO FORTH MONDAY

(By Associated Press.)

Washington, August 9.—Documents used by the American peace delegation will be transmitted to the Senate Monday in response to the foreign relations committee's request.

SLEUTHS GIVEN ORDERS TO DIG DEEP IN PROBE

Trained Agents of Department of Justice at Work

Hunt for Profiteers Just Beginning.

(By Associated Press.)

Washington, August 9.—All special agents of the Department of Justice over the country have been ordered to assist district attorneys in uncovering evidence of profiteering in foodstuffs and other necessities.

Attorney General Palmer's instructions were that the special agents should drop everything but the most pressing cases now pending and devote their entire attention to assisting in the campaign to reduce the cost of living.

The result will be to put hundreds of trained investigators in the search for men who have inflated prices exorbitantly.

RIOT OFFICERS ARE REMOVED FROM CHICAGO

Strikers in Stockyards Want Every Guard Removed.

(By Associated Press.)

Chicago, August 9.—Five hundred policemen, 250 deputy sheriffs and the last of the state troops assigned to race riot duty were withdrawn from the stockyards today in the hope that the striking employees of the packers might return to work.

About 1,000 patrolmen and 100 deputy sheriffs still are on duty in the vicinity of the stockyards.

Leaders of the Stockyards Labor Council said the men would not return to work until every guard is withdrawn and permission granted to unionize the 9,000 negroes.

FARMERS WILL TAKE A HAND

(By Associated Press.)

Indianapolis, Ind., August 9.—Representatives of farmers' organizations in 24 wheat and corn growing states will attend a conference in Washington Monday morning to discuss the high cost of living and lay plans for united action in the High Cost of Living investigation, according to John W. Brown president of the Indiana Farmers Association.

FOODSTUFF TAKES JUMP IN CHICAGO

Government's Crop Report Offsets Effect of Wilson's Speech on Staples.

Corn Up Another Four Cents and Pork \$1.75 per Barrel

(By Associated Press.)

Chicago, August 9.—Every single staple in which there are dealings on the board of trade rose decidedly in price today. Whatever effect to the country might have been looked for from the address of President Wilson, was entirely obscured by the opposite influence of the government's crop report.

Extreme upturns of four cents a bushel in corn and \$1.75 a barrel for pork resulted.

INSIST BUREAU OF MARKETS IS BOOSTING PRICE

Hamilton County Grand Jury Urges Discontinuance of U. S. Bureau.

Finds Evidence of Profiteering and Law Violations

(By Associated Press.)

Cincinnati, O., August 9.—The Hamilton county grand jury, which is investigating the high cost of living, in a partial report today stated it had found evidence of profiteering and hoarding. No indictments and no names were made. The investigation will be continued.

It is claimed that the United States Bureau of Markets here is one of the big causes of the high cost of living and the grand jury urges discontinuance of the bureau.

It is charged the bureau's price lists are not based on cost of production, and supply and demand.

MONDELL SAYS CONGRESS WILL ACT PROMPTLY

(By Associated Press.)

Washington, August 9.—Republican Leader Mondell declared in the House today that Congress was ready to act promptly on such legislation as is needed to carry out suggestions made yesterday by President Wilson for reducing high costs of living.

Further appropriations suggested by the President will be made quickly, he said.

"Congress stands ready to consider any estimates and hopes such estimates as are necessary and essential will be submitted to Congress as promptly as possible," he said.

**CAR SHORTAGE
IN VERY ACUTE
WHEAT TIED UP**

Many Elevators in County
Closed and Much Wheat
Is Held on Farm.

Considerable Capacity Still
Available in Some Local
Elevators.

During the past week or ten days the car shortage has been growing more and more acute in Fayette county, until at the present time it has reached a point where some of the elevators of the county are unable to turn a wheel and, with their bins full of wheat are awaiting arrival of cars so that they can resume operations.

Many farmers, unable to dispose of their grain at their usual markets, have been forced to haul elsewhere or dump the wheat in their granaries until such such time as they could market it.

In some instances the farmers have used every available space to care for their wheat until it can be marketed, and as some of the wheat has been very damp, there is danger of damage to the stored grain unless it can be moved promptly.

In this city part of the elevators have been able to handle wheat without cessation, and some of them still have considerable capacity before being filled up, while an occasional car makes it possible for them to make some shipments of grain.

Where the grain is being stored in large quantities in this city, it is necessary to pass it through the dryer so that all moisture is removed and the grain is in good condition.

Tens of thousands of bushels of wheat in some parts of county have been retained on the farm until such a time as cars can be obtained by the elevators which have been closed.

KNUCKLE CALENDAR

Most persons remember the number of days in any particular month by recalling the rhymes they learned in childhood. Another method is practiced in Iceland, and it is so simple and ingenious as to be worth knowing. Shut the fist and let the knuckle of the forefinger represent January with its 31 days and the depression between that and the next knuckle February with its smaller number of days. And thus every month that corresponds to a knuckle will be found to contain 31 days and every month that corresponds to a depression a smaller number of days. The little finger knuckle will represent July; begin again with the forefinger knuckle, which stands for August, and from this on continue to count through the months of the year.—New York Sun.

**W. W. WILSON AND
SON GET COMPLETE
LINE OF THE I. H. C.**

Announcement is made that The International Harvester Company, under a new ruling, places its complete line of McCormick and Deering grain and grass cutting machines, tillage implements, tractors, spreaders, and other farm implements, in the hands of only one firm in each city, and that W. W. Wilson & Son in this city has obtained the agency at this point.

As a result of the contract with The International Harvester Company, W. W. Wilson & Son are preparing for another large warehouse located on the switch of the D. T. & I. on Oak Street, and the new structure will be of sufficient size to accommodate a large amount of machinery and farming implements.

There is hardly a farm in Fayette county but what has I. H. C. implements, and as the firm is planning to install a competent repair department it is expected that farmers generally will fully appreciate the importance of the move.

Messrs. Wilson are not only experienced in handling farm machinery and implements, but are practical farmers themselves.

**SMOKE CURTAIN
ALL OVER STATE**

The heavy curtain of smoke, which descended upon this community Friday and by Friday evening had reached a considerable density, was general throughout the state, according to information issued by the Associated Press, although no reason for the smoke curtain could be given, unless the smoke came from the northwest where forest fires have been raging for some time, and was carried to Ohio by the shifting of the wind.

CONGRESSIONAL INVESTIGATORS PROBE INTO U. S. ARMY BRUTALITIES ABROAD

Representatives Oscar E. Bland (left) and Royal C. Johnson.

Much evidence of brutality to inmates of the prison camps of the American expeditionary forces in France has been unearthed by Representatives Royal C. Johnson of South Dakota, former service man, and Oscar E. Bland of Indiana, members of the congressional sub-committee on foreign expenditures. Evidence that army officials in France deliberately destroyed millions of dollars worth of U. S. property has also been brought to light.

BUM CARRIED HUGE PISTOL

One of the train riders picked up by B. & O. Detective Fred Lieurance Friday evening was found to be carrying a large 44 caliber revolver and a charge of carrying concealed weapons was placed against him. The man gave the name of Joe Kale, of Madisonville, Ky.

In Justice of the Peace T. N. Craig's court Saturday morning Kale pled guilty and was bound over to the common pleas court.

When arrested with seven others, Kale dropped his hand to his gun pocket. The action was noted by Officer Lieurance who promptly informed him that another move toward the gun and he would knock him out. The detective then removed the young cannon from its hiding place.

Essex Beats Competitor In Bray's Hill Contest

Friday afternoon, in a fair and square test before judges, an Essex Four, Touring Car, easily bested a competing car in a race up Bray's Hill. The test was made on a wager growing out of a discussion on the merits of the two cars, and definitely establishes the superiority of the Essex as a hill climber.

In one feature of the test, the Essex, from a standing start, midway of the hill, went over the top in high, carrying four passengers.

The achievements of the Essex are many—it has been repeatedly tested, everywhere in the United States, to establish the one pre-eminent feature of its construction—POWER. In the Rockies, in the Sierras, and everywhere difficult going is to be found, the Essex has been tried and found worthy.

But it takes the Bray's Hill race to bring the argument home. And what the Essex did there, it can do anywhere. The Essex is not merely a "pretty car." It's a car you can rely on.

Let us show you an Essex.

OUT FOR A TIME AND HAVING IT WORKING STREETS

Detective Lieurance of the B. & O. Railroad picked up a small army of the unemployed late Friday evening and lodged the entire bunch in the county jail over night. Twelve men were counted when they faced Judge Allen Saturday morning and the squad was turned over to Mayor Dahl for street cleaning.

Saturday the men were worked on the streets and made a very creditable showing with the broom and shovel. Mayor Dahl declared that he was very glad to see them as he had been short of help for some time and their arrival greatly relieved the labor situation.

The men were of both colors and hardly more than boys. They gave no other reason for riding the trains than that they were "out for a good time." There was one former soldier in the gang.

The Right Ring

President Wilson's ultimatum to the railroad employees that they must return to work before their demand for increased pay will be given any consideration by the administration rings in harmony with the feelings of the American people.

It is amazing that the railroad brotherhoods, made up, as they are of responsible, thoughtful, law-abiding men in prosperous circumstances would think for an instant that they could coerce the government into granting their request by any such a procedure as a strike at this critical time in the affairs of the nation.

The need now is for a vigorous handling of the situation. There should be no parleying with men who seek to take matters into their own hands by resort to force. The strike action, at this time, seems a confession of a lack of merit in their case, an attempt to jam through a selfish proposal.

This is no time to indulge in theories or in dreams of a coming milenium. The conditions must be handled firmly and justly always with the government of all the people held, acknowledgedly supreme to any individual or class demand.

It is unfortunate that the conditions were such, or deemed to be such, at the time the Adamson law was enacted, as to create, evidently a wrong impression on the part of some of the railroad men. Some of them seem to have concluded that compliance with their demands at that time when the government was facing a crisis established a precedent for them to run things as they saw fit.

This is the time and this is the very condition to convince them once for all that the national government will not submit to being bludgeoned into compliance with the demand of any class.

If the men have a just grievance there is a way to submit it properly under the constitution and the laws of the nation first to the federal government and if redress for just grievances is not obtained there, then an appeal can be made to the voters.

Seeking to secure, by force, the granting of a demand for special privileges by any class to gratify a selfish desire is Bolshevism pure and simple and should be checked with a firm hand.

No end sought in free America justifies such means. If the enactment of the Adamson law established a precedent it's time now to establish another and a more correct one. If the enactment of the Adamson law created an erroneous impression it's time to correct it.

Any compromise, or any parleying with the situation would be dangerous in the extreme. For the present, it seems, that the conditions are for the President and the Railroad Administration to deal with. No legislation is called for at this time.

Obedience to law, respect for the constitution, the flag and the needs of the people are the first and only need of the moment.

Hazy Days

Experts tell us that the smoky, hazy condition of the atmosphere so very noticeable on Friday, was almost wholly due to the forest fires raging in the timber preserves of the northwest.

May be that's true. We have no disposition to join issue on facts so peculiarly within the knowledge of those whose business it is to gather facts, arrive at and announce conclusions.

We like, however, to think that the hazy, dreamy fall days are here once more and that the blazing summer sun is receding to the southern regions. Of course, we know that the sun doesn't actually travel down toward the equator, but in effect it does, as this old world assumes a new angle, swinging round the sun.

There's a charm and a fascination about the autumn days although we know it is but a little in advance of winter. We are certain to have some hot days yet. Quite likely, in view of what the experts say, the great forest fire smoke is drifting over this way even though it is hundreds of miles distant, but the indications of coming autumn are unmistakable.

The moon, as well as the sun, has taken on a different and softer hue, the katydids have come, the sounds of the insects are more pronounced.

It will not be long now until a little fire in the "living room" will be quite comfortable.

POETRY FOR TODAY

DID YOUR SHIP RETURN?

Did ship of thine come back to port,
Ruined and shattered by the storm,
Her fair white canvas torn and stained,
A shapeless wreck her once proud form?

And standest thou disconsolate
To mourn thy loss from all apart?
'Tis not the storm that conquers thee
Nor fate; 'tis but thine own faint heart!

Go build thee yet another ship;
To that new task new courage bring
Build stouter, fairer than before,
And as thou buildest ever sing.

For thou shalt know this thing at last,
Though every dream should be fulfilled,
And all thy ships come safely home,
The greatest joy is still to build.

"KEERFUL Y' DON'T MAKE A MESS OF IT, BOYS"

TO SEIZE GOLD AND ALL JEWELS OF INDIVIDUALS

Vienna, Austria, July 12. (By Mail) government has decreed that it will take over all gold, silver, jewelry, foreign bonds and forests which are in possession of private individuals, who will receive compensation for them. One of the government's objects is to obtain funds to purchase coal and raw materials in order to provide work for the people. Incidentally to buy foodstuffs, without which the starvation conditions of last winter will be horribly accentuated this fall.

It is predicted that unless the allies occupy Budapest and end the present communist regime the country's crops will be wasted and the people will starve in the coming winter.

The first effect of a kind of a blockade established by a force of American soldiers along the Austrian frontier of Hungary will be to prevent money, or materials which represent money, from flowing out of the country, for it is known that the communists are sending money abroad for propaganda purposes.

The Americans are experiencing great difficulties in controlling an immense amount of contraband traffic that has sprung up in small border town like Bruck, through which the communists are smuggling out money and Hungarians who fled to Vienna are trying to bring out their buried treasures and bonds. There is said to exist a special service carried out by airplanes by means of which hundreds of millions of crowns have been conveyed out of the country.

BONDS

In good Bonds you get the advantages of safety and security—the very foundation principle of a desirable investment.

The War Loans of the United States Government were covered by Bond issues—in order to offer the people the utmost safety and security.

People have learned the wisdom of saving—and of investing their savings in safe securities. And this can only mean that people everywhere have been educated to the investment value of Bonds.

Buy Bonds. Do not stop saving now that the war is over. Do not stop investing your savings. Fortify your future with Bonds.

It is our business—and will be our pleasure—to aid investors, large or small, in the purchase of such Bonds as offer the maximum of safety and security.

RANDOM NOTES

SOCIAL : PERSONAL MENTION : CLUBS

A meeting of unusual interest of the Woman's Home Missionary Society of Grace Church was held in the church parlors Friday afternoon with Mrs. C. S. Haver in charge of the devotionals.

In the absence of the program leader Mrs. G. S. Hodson, Mrs. C. A. Teeters was in charge of a well prepared program previously arranged by the leaders. Mesdames Clara Harper, Louella Chapman, C. A. Stafford, F. M. Kennedy and Miss Josephine Porter assisting with helpful readings telling the story of the Jubilee decade of the W. H. M. S. Mrs. J. B. Worthington gave an excellent reading, "A conservative recipe" for making Doctor's in China for China.

Mrs. C. W. Shough was welcomed to the membership role.

Mrs. Austin F. Hopkins threw open her handsome home for a delightful suffrage tea Friday afternoon, attended by thirty guests.

Mrs. James Ford introduced two speakers, Mrs. H. G. Coffman and Miss Mary Robinson. Mrs. Coffman outlined the suffrage issues as they are now in special prominence and Miss Robinson made a talk along the line of her work as chairman of the Red Cross Home Service Department which made strong appeal to the emotions of her hearers.

The connection between the Woman's Suffrage movement and welfare work as it develops in Miss Robinson's department is very close. Beautiful Victrola music and a dainty refreshment added to the pleasure of the afternoon. Clusters of Gladioli were gracefully placed in the rooms.

The beautiful Princess Della Patra, a niece of the Khedive of Egypt, recently arrived in San Francisco on a visit to America for the avowed purpose of finding a husband who is young and temperamental. While in San Francisco the Princess intends spending \$50,000 on a wardrobe. She has declared her intention of introducing Egyptian styles in this country. She will visit the principal cities of the country in her search for a husband.

Miss Helen Gertrude Green, of South Hickory street, will leave for New York on Friday, to continue her lessons in dancing under Adel Dantina. She will attend the convention

BOYS ARE HELD FOR BURGLARY OF MANY STORES

Carl Smith, Arrested After Sale of Stolen Pocketbook Implicates Earl Johnson.

Police See End of Petty Thievery Which Had Become Frequent.

Following a rigid investigation which has taken place as a result of a number of petty burglaries during the past few weeks, Carl Smith and Earl Johnson, both young men, have been taken in charge by the police.

It is alleged that the two young men have been implicated in a number of the recent robberies of the business houses of the city.

The arrest of Smith came after a man had purchased a pocketbook from him and the purses later was identified as being from a local store. It is said that in the examination given Smith by the police, he implicated the Johnson youth by his confession.

The Johnson had was later rounded up by the police and underwent an examination Saturday afternoon.

Each of the accused has been in the courts before, it is announced. As result of the arrests the police expect to put an end to the numerous small burglaries that have been committed in the city during the past few weeks.

Paris, August 9. —Rumania's course in Hungary is to be limited to maintaining order, it was said today by the Rumanian delegation and Rumania will with draw the troops as soon as the Hungarians comply with the Rumanian ultimatum.

PLUMB SPENDS DAY ON STAND

(By Associated Press)
Washington, August 8. —All day long, from a witness chair before the House Inter-state Commerce Committee Glenn E. Plumb, counsel for railroad brotherhoods responded today to sharp questioning from the semi-circle of committee members, who called on him to explain every phase of the labor bill.

Through it all Mr. Plumb clung steadfastly to the assertion, numberless times repeated that the railroad unions aimed "to eliminate the motive of operations for profit and substitute to motive of operation for service," to which he added the corollary that "it means democracy in industry, without which democracy in politics is a mere shell."

ALLIES WITH NEW REGIME

(By Associated Press)
Geneva, August 9. — The inter-allied mission at Budapest after a conference with Archduke Joseph and Premier Friederich has forwarded to M. Clemenceau, president of the peace conference, a report to the effect that the Entente representatives are in full accord with the new Hungarian government, according to a Vienna dispatch.

REDS WIN

(By Associated Press)
Cincinnati, August 8.—The Cincinnati team won the first game of the series with Philadelphia by bunching three hits with two passes off Packard in the first inning and scoring four runs. After the first, Packard pitched great ball, only one man getting past first base off him in the last seven rounds. Reuther was wild walking six men.

GIANTS BLANKED

By Associated Press.
Chicago, August 8.—Claude Hendrix of Chicago held New York to three scattered hits today. It was the first time this season that the Giants have been shut out by a right hand pitcher. As a result of their defeat and Cincinnati's victory over Philadelphia, the gap between the Giants and Reds has been extended to three and one half games.

greater portion of North Dakota, east-central and northwestern Iowa, south-central Missouri and extreme northern Nebraska. The fall was moderate to heavy over the eastern portion of Indiana and Kentucky and eastward, and in northwestern Minnesota, exceeding an inch at five stations in Ohio, two in Minnesota and at Richmond, Kentucky. The temperatures continue abnormally high in the southern Plain States, maxima of 100 to 106 occurring over much of Kansas and Oklahoma. Cooler weather may be expected tonight eastward to upper Mississippi Valley and from the Plain States eastward to the middle Mississippi valley and Lake Michigan on Thursday.

In addition to the five stations shown in the table, the following stations in Ohio report heavy rains for the past 24 hours: Beverly, 1.17; Cambridge, 1.30; Fremont, 1.62; Tiffin, 3.45; Urbana, 1.66; Wooster, 4.29.

Summary of weather and crop conditions in the corn and wheat region for the week ending August 5, 1919.

Washington, D. C., August 6, 1919.—Moderate to high temperatures prevailed over interior districts and light to heavy rains occurred in central sections and the upper Mississippi Valley and eastward; also in the upper Plains States. There was some relief from the drought in the far North west but the moisture was generally insufficient. Corn made very good growth generally in the principal producing areas except there was little progress where it was too dry, principally in the central and lower Plains States of the uplands of the lower Missouri Valley. The weather was favorable for threshing of winter wheat

and the harvesting of spring wheat which work is now well along. The condition of spring wheat continues mostly unsatisfactory with yields reported generally poor in both quantity and quality in most sections of the belt. The harvesting of oats and barley progressed favorably. Oats yields are below expectation in some central districts.

Weekly Weather and crop report for the Ohio Section for the week ending August 5, 1919.

Pastures and most growing crops were greatly benefited by light to moderate rains in southern and western counties and moderate to excessive rains in central and northern districts. Good to excellent progress was made generally with all farm work, under continued favorable weather conditions except in a few localities where there was too much rain. The threshing of wheat progressed satisfactorily except locally where delayed by rains. There is still considerable wheat in the shock. The progress and condition of corn continue good to excellent. Good progress was made with the harvesting of oats and the yield is fair to good. Tobacco is irregular, some very good and some very poor.

AUGUST 13th, 14th and 15th**

High Class Trotting and Pacing Races. Good Purses in all Speed Ring Events. The Horse, Cattle, Swine, Sheep and Poultry Departments and the Vegetable, Agricultural and Fine Arts Halls will interest you.

The Boys' and Girls' Club Work will be a Big Feature of the Fair. They will have many splendid exhibits.

The large variety of Agricultural Machinery Exhibits should attract every farmer. It will help you.

The men of America who till the soil must use their hands less and machine power more, put gangs of iron fingered laborers at work upon farm tasks of every kind and multiply the farm labor supply a hundred fold by conscription of that great army of steel farm hands that awaits the call to arms.

Special \$1,000 Free Attraction

The Fair Company has contracted for a \$1,000 program of Free Attractions. The famous Dellamead Troupe will appear in Ancient and Modern Sculptor Posings in seven numbers. The Earl Sisters will thrill the crowds in their high Flying Ladder performances, and there will be a high class Novelty Comedy Act worth the price of admission to the Fair. Each program will close with the Ferris Wheel Girls in music and aerial trapeze acts. See the Big Midway Shows.

INJURED IN WRECK ASKS FOR \$10,000

For injuries received four years ago when an excursion train on the B. & O. railroad was crashed into by a rapidly moving freight at Orient, and many persons killed and maimed, including several Fayette county persons among the injured, Margaret Alkire has filed action in the Franklin County common pleas court for damages in the sum of \$10,000.

This action is one of a score or more in which the railroad has been forced to settle for injuries sustained by passengers who were aboard the train at the time.

FROM CADDY TO A CHAMPION AT SIXTEEN

When Francis Ouimet startled the amateur world by winning the national open championship little Eddie Lowery was his caddy—the envy of the other caddies. Today Lowery has joined the ranks of the champions. He recently won the Massachusetts junior title in the tourney over the Brookline Country club links, where he caddied Ouimet to a championship. Lowery equalled the amateur record by going around the course in 72. He is just sixteen years old. Lowery must have been inspired.

CHAUTAUQUA MAN HERE FROM CANADA SURE OF BIG CROWD

O. L. Allanson who just arrived in Washington C. H. as advance Superintendent for Washington C. H. Chautauqua, reports that he has been doing similar work in Canada during the last two months and that very successful Chautauquas have been held in forty towns and cities of Ontario.

"Great enthusiasm was manifested for the Coit-Alber Chautauqua programs in the cities I visited in Canada," said Mr. Allanson. "This was their second year and they fully appreciated the splendid bargain they are getting, and are planning to sell their season tickets next summer for \$2.50 for a six-day program instead of \$2.00 the amount charged this summer.

The program given in Canada was almost the same as the one to be given here, except that your program will be larger and more expensive with added attractions like Dr. Gordon, Hruby's Czech-Slovak Quintette and Miss Martino, Judge Lindsey, Frank Branch Riley, and the Orpheus Quartette.

Washington C. H. should have a large season ticket sale—one thousand and should be its minimum. In at least one Canadian town a record was set. The town has a population of eighteen hundred people and eleven hundred season tickets were sold."

NEW ROAD LAW IN SEPTEMBER MAKES CHANGES

County Surveyor Assumes Direct Control of all the Township Roads.

Deputy Will Be Selected to Have Charge of all Repair Work Done.

With the coming of September the township roads of Fayette county will come directly under the supervision of the County Engineer, or County Road Superintendent, under a new statute which becomes effective at that time.

The new statute provides: "Sec. 2788-1. The county surveyor shall designate one of his deputies as county maintenance engineer. Such deputy so designated shall be a person experienced in the maintenance and repair of roads and it shall be the duty of such maintenance engineer, acting under the general direction and supervision of the county surveyor, to have charge of all road maintenance and repair work carried forward under the supervision of the county surveyor."

"The county surveyor, when authorized by the county commissioners, shall appoint a maintenance supervisor or supervisors to have charge of the maintenance of improved highways within a district or districts established by the commissioners and surveyor and containing not less than ten miles of improved county roads. Such maintenance supervisor shall act under the direction of the county surveyor and the county surveyor, when authorized by the county commissioners, shall establish a patrol or gang system of maintenance under the direct charge of such supervisor. The compensation of such supervisor shall be fixed up on a per diem basis by the county commissioners and shall be paid out of the road repair or county road fund upon the approval of the county surveyor."

"Sec. 2381-1. In the maintenance and repair of roads the township trustees and any township highway superintendent, appointed by them, shall be subject to the general supervision and direction of the county surveyor."

PREPARING TRACK FOR THE RACES

In preparation for the races next week at the Fayette County Fair a force of men have been employed for several days on the track. The management states that the course is being worked every day and will be in the best of condition for the fast ones. Indications are that some of the best time ever made on the local track will be equaled.

The Longer You Own A Cheney The Sweeter It Plays

The CHENEY PHONOGRAPH

Style Four William and Mary

AS AGE has added tonal richness to violins made by the old Italian masters, so Cheney Tones gain beauty with the years.

This unique quality is directly attributable to the Cheney resonator which is carved with violin lines from seasoned spruce and suspended free from the cabinet walls. This permits it to vibrate, as a violin does, and there seems to be a molecular change in the wood which adds sweetness and quality to the tones.

Thus, the tonal purity and mellowness of the Cheney is of increasing value, and it becomes a prized heirloom to be handed down from generation to generation.
